A special thank you is extended to Derry School Counselors; Captain Vern Thomas, Derry Police Department, West Running Brook and Gilbert H. Hood’s National Junior Honor Society Members, and Derry Bullying Prevention Committee members for organizing student activities and helping with child care this evening. Thank you to students from the Pinkerton Academy Mentor Program for presenting this evening. The Derry School District P.T.A.’s contributions to this evening’s event are also truly appreciated.

* *This presentation may contain explicit language and will include demonstration of games such as Call of Duty*
All parents/guardians must sign their children in and out at the designated table outside the cafeteria.

Descriptions of presentations are on the back of this agenda.

Citizenship in the Digital World Presentation Descriptions

Social Media Awareness and Guidance

- A discussion on trends being observed by local law enforcement involving school age children and the use of social media.
- Advice and suggestions for dealing with social media/internet access for your child.
- Questions and Answer period

Online Gaming and Safety

- Informational session for parents about choose age-appropriate games
- Setting up parental controls
- Making sure your child's video experience is safe and secure

CyberSafety: Student 2 Student

- Mr. Peter Lamonica, Forensic Investigator/Specialist, will discuss the latest work by the Internet Crimes Against Children (ICAC) Task Force.
- In 2013, the ICAC task force trained over 30,000 law enforcement personnel, over 3500 prosecutors and more than 5300 other professionals working in the ICAC field.

What's Your Digital Footprint?

- You leave footprints in the sand. What is a person's footprint and how does it expand.
- What's your digital footprint?

Digital Citizenship

- A lesson in Digital Citizenship first presented by three Pinkerton Academy Mentors in their freshman seminar class.
- Learn about the appropriate ways to use technology responsibly and efficiently, along with the misconceptions of privacy online.

Staying Safe in Cyberspace (Painting Mural for Students)

- Students will work together to paint a mural that displays different ways to be safe online
